

Karen G. Carter

Ph.D. Emphasis: Occupational and Technical Studies
(which area? CTE, HRT, or Tech Ed?)

Program Entrance Date: Summer 2006

Current Job: Dual Enrollment / Governor's School Coordinator
Mountain Empire Community College

Projected Job: Professor and Researcher

Future Aspirations: My future aspiration is to become a professor with an educational institution that serves our military and their dependents while overseas. Were it not for these professors, I would not have been able to continue my education while living abroad with my husband as he served his country. Plus this is a great way to see the world and to build a "sympathy" vision of the world's ever changing dynamics. Thus, not only will I be helping someone else down the educational road but continuing mine as well.

Previous Education

<u>College(s)</u>	<u>Study Area</u>	<u>Degree(s)</u>	<u>Year</u>
