Enrollment in postsecondary education is steadily increasing for students with disabilities. Yet many students are not adequately prepared to deal with the academic and social demands of this environment. **Say YES to College** is designed to ease the transition from high school to college.

**Say YES to College** participants will:

- Meet other students with disabilities who have successfully made the transition to college;
- Hear a variety of speakers who will offer information and suggestions to make college a positive experience;
- Experience a taste of life in a dormitory setting; and
- Connect with other high school students who have the same questions and concerns about their readiness for college life.
