Software Checked out: ________________             Copy #: _____________________
Check-out Date: __________ Due Date: ___________  Actual Return date: ________
Software Key: ________________________________________________________

MSDN Academic Alliance - Student Use Guidelines Form:

✓ As a member of the MSDN Academic Alliance (MSDNAA), the department in which you take
courses is authorized to provide you with program software for use on your personal computer. To
be in compliance with the MSDN Academic Alliance Program requirements, you must follow these
usage guidelines when using the program software on your computer. You must also agree to the
terms of the MSDN End User License Agreement (EULA), the Amendment to the ELUA, and any
conditions required by your department.

✓ The MSDNAA Site Administrator at your school will be responsible for maintaining records of your
student use and ensuring there is full compliance with the program among department users,
including students, faculty, and systems administration staff. Please see your Site Administrator
for any questions that you may have about the program.

✓ By installing, copying, or otherwise using the Product, you agree to be bound by the terms of
the ELUA and the amendment to the EULA. If you do not agree to be bound, do not install
or use the product.

✓ Installation Guidelines:
✓ You must be registered in at least one credit course within the member department to be eligible to
load program software on your personal computer. Students registered solely for non-credit
courses in the department are not eligible to receive program software.
✓ You may not copy the program disk or give copies of this software to anyone else. Other qualifying
students must obtain the software via the method(s) set up by the MSDNAA Site Administrator.
✓ In order to install certain components of the product, you may need an Academic Alliance Product
Key ("Product Key"). The Product Key will be assigned to download authorized software. You may
not disclose the Product Key information to anyone else.
✓ The MSDNAA Site Administrator will maintain records of software downloaded from a server or
checked out, and will provide those records to Microsoft upon request.

✓ Usage Guidelines:
✓ You may use the software for non-commercial purposes including instructional use, research and/or design, and development
and testing of projects for class assignment, tests, or personal projects. You may not use the Program software for a For-
Profit software development.
✓ When you are no longer a registered student in a department that is a member of the MSDN Academic Alliance, you may no
longer receive updates for your personal use computer. However, you may continue to use previously installed products on
your computer, provided you continue to follow program guidelines.
✓ If you violate the terms of the EULA and the Amendment to the EULA, the MSDNAA Program Administrator will demand
confirmation of removal of the program software from your personal-use computer.

Student Signature below indicates student’s acceptance of the Student Use Guidelines described above.
