Essay Questions:

What changes, if any, could be made to the class that would have helped you to learn more? What could the instructor have done to make the course an even better learning experience?

Nothing really comes to mind, to be honest. The instructor did a pretty good job making this a reasonable class.

The homework schedule was confusing

What could you have done to make the course an even better learning experience?

Going slower in class. He would get excited and start to move fast

I suppose I could have gone to office hours but did not find it particularly necessary.

Essay Questions:

What did you like most about the class and your instructor?

Dr. Weinstein was very informative, as his passion for the subject matter definitely shows. Even though physics isn't my best subject, he made it as simple as he could have and made difficult concepts easier to understand. He was overall a great professor and I'm glad I had the opportunity to take his class.

He was very enthusiastic and that made me excited for class

I enjoyed learning little tidbits that help me understand my world better.

What factors about this class contributed the most to your learning? What aspects of this class helped you to learn to think critically?

In class lectures definitely helped

It was fascinating information with real-life applications that required my full attention and participation.

What factors about your own performance helped you learn the most? What did you do to facilitate your learning?

I always read the material and do the work, and am attentive in class. This helps.

I used flash cards and studied his lectures
