<b>I Attended Class</b>	Few	1
	Most	1
<b>Reason for Taking Course</b>	Required for Major	2

**Essay Questions:**

What changes, if any, could be made to the class that would have helped you to learn more? What could the instructor have done to make the course an even better learning experience?

Absolutely nothing. This class was awesome i just wish we didn't have to finish it online.

Record the classes. I think if he records that class like what he did for the Zoom meetings, a student can go back on that lecture and review it.

What could you have done to make the course an even better learning experience?

i feel like I've learned so much from the past two years in physics with this professor. I even annoy my roommates with fun physics facts daily. I don't think anything could have improved this class for me except COVID-19 disappearing.

Not sure.

What did you like most about the class and your instructor?

**Essay Questions:**

I liked that he knew what he was talking about. I also love that even if you ask a stupid question, he isn't rude with a response, he tells the student, "good question," then proceed with the answer.

This is my favorite class because he was always so enthusiastic and ready to answer any question you had no matter what it was. He really made physics so much fun.

What factors about this class contributed the most to your learning? What aspects of this class helped you to learn to think critically?

The demos were amazing and really helped to explain the topic well. He is an incredible professor.

What contributed most to the learning was that he had actual demonstrations in class that helped me remember the reasons and words.

What factors about your own performance helped you learn the most? What did you do to facilitate your learning?

I studied for 1.5 hours a day or whenever I have to finish homework. I do think the fact that I had other factors in my life was a struggle for me of not getting an A.

What helped me the most was taking detailed notes and reviewing the old exams provided before a test.
