Essay Questions:

What changes, if any, could be made to the class that would have helped you to learn more? What could the instructor have done to make the course an even better learning experience?

Cannot think of anything
I think the class where we worked on problems could be done more often, maybe as a recitation. It really helped hit problems home.

What could you have done to make the course an even better learning experience?

I could have continued to keep taking notes, but listening in class helped more than writing.
I would have made more interaction with the professor.
Solve more problems other than the homework problems. Do not get enough time to do that though.
